

Geology Research Support Application

Semester/Year

Project title

Amount requested \$

Applicant information

Name:

E-mail address:

Degree objective:

Advisor's name:

When did you start graduate studies at UGA (Semester/Year)?

Have you ever met with your entire advisory committee (yes/no)?

Have you submitted your thesis or dissertation proposal (yes/no)?

For Ph.D. students, have you passed your comprehensive exam? If so, when (semester/year)?

Expected graduation date:

For consideration by the following grants programs (check all that apply):

Watts-Wheeler

Allard (field work)

Berg (geophysics)

Levy (marine geology)

What hypothesis or hypotheses will you test and what are your overall objectives? (1200 character limit)

Why is this research significant? Place it in a disciplinary and, if appropriate, a regional or temporal context (2500 character limit)

How you will you test your hypothesis or hypotheses? (2500 character limit)

Budget

Description	Total amount budgeted	Amount requested
-------------	--------------------------	---------------------

Budget justification (1200 character limit)

Other research funding applications

Date	Grant agency	Amount requested	Amount granted or date decision expected or indicate if funding was declined	Amount remaining
------	--------------	------------------	--	------------------

List all previous Department of Geology research funding

Date awarded	Amount awarded	List how the funds were spent
--------------	----------------	-------------------------------

References cited in proposal (2500 character limit)

Include a one-page support letter from your advisor
